THE BRAND VALUE

The value of the Franz Josef Keiser brand is closely linked to tradition and high quality of products. Our company particularly emphasizes the original design along with a unique and unforgettable taste experience which is favourably perceived by our customers and the brand is appreciated as a symbol of excellent quality. Moreover, an absolute proof that our company belongs among the brand leaders in the durable foods category can be found in long-term customer satisfaction and minimal changes in the product range. Nevertheless, the Franz Josef Kaiser brand constantly tries to come up with new products and innovate the product range following current trends and customer needs.

Our philosophy is to offer such food products which are not available for customers in their fresh form. The universal mission of our company is to provide customers with an opportunity to enjoy quality products regardless of their location. The Franz Josef Kaiser products can be found in majority of retail chains and also in countless online stores.

According to our company, the secret of success is based on our employees involved in selection, control, optimization and distribution of our products throughout Europe. Simultaneously, the brand is concerned not only about the Premium quality products but also about our employees, their families and surrounding. The company values are in accordance with personal development, team spirit and family life. Furthermore, all our employees are highly appreciated and their individual needs are taken into account.

FRANZ JOSEF KAISER

„During the decision-making process how to conceptualize our PREMIUM product line, the real historical figure of Emperor FRANZ JOSEF was used as a representative of tradition, nobility, refinement and cultivated taste.

All mentioned qualities are represented by the Franz Josef Kaiser brand. Therefore, it makes me deservedly proud of having had the opportunity to participate at the foundation of this premium brand which, since then, has gained a strong reputation and stable background all over Europe. Despite the logo design picturing an old monarch, the brand is fresh and trendy.“

Rudolf Kafka – Sales Director
